

THE DUO COLLECTION FOR AARIKKA

"The Duo collection by Magnus Löfgren is a playful design based on basic geometrical shapes. Aarikka is well known for using rounded shapes in many of their products and this collection is no exception. The theme was created in 2012 and has now been put in production by Aarikka as the Duo Collection.

This line consists of various products in wood and metal, such as candleholders and flowerpots. Duo Collection comes in Aarikkas signature wooden materials in combination with parts in metal."
